

PRESS RELEASE

REVENUE CYCLE SOLUTIONS ENTERS RELATIONSHIP WITH AMERINET INC.

Pittsburgh, April 15, 2004 – Revenue Cycle Solutions (RCS) has entered an agreement with **Amerinet, Inc.**, one of the most innovative and effective health care group purchasing organizations in the country. Effective February 1, 2004, Revenue Cycle Solutions, LLC, a healthcare financial consulting firm, provides Amerinet members with discounted access to its revenue cycle reviews, short and long-term revenue management services, payer contract evaluations and monitoring and customized projects.

RCS president, Daniel Thiry, predicts that the relationship with Amerinet will expand RCS' ability to reach its target clients - small and mid sized hospitals. "We are focused on the problems smaller hospitals may have attracting experienced and knowledgeable managers. We think our innovative and cost-effective management services will be a welcomed alternative to permanent on-site employees," he said.

RCS's consulting and support services include:

- **Revenue cycle reviews** are intended to optimize the efficiency of a healthcare provider's revenue cycle process. The areas of review include pre-certification, admission, UR, insurance verification, charge capture, billing, collection and handling of bad debts.
- **Patient account management services** typically accompany or follow a revenue cycle review. These services include the on-site evaluation, restructuring of patient account processes and either interim or long-term management of the patient account operations.
- **RCS' Contract Essentials** includes a review, organization and written summary of the essential provisions and performance indicators of all or selected managed care and other payer contracts, including valuable data comparisons among payers. RCS can also provide ongoing monitoring of contract performances and quarterly or periodic updated reports.
- **Customized Projects** are ad hoc reviews or services to identify and correct specific provider issues. Examples include patient accounting software reviews and managed care contract negotiations and re-negotiations.

To learn more about RCS, call 412-322-2100 ext 382; e-mail their marketing director, Vic Zediker (vic@revenuecyclesolutions.net) or contact Amerinet at info@amerinet-gpo.com.
